PERSONAL

Versatile, professional, with tons of promo, documentary/narration and eLearning/training course experience. I "Do" numerous voices, characters, accents, dialects and celebrity impersonations. Equally comfortable as "Regular Guy," "Compassionate Guy," "Straight Arrow Voice of Course Guy," or "High-Energy Promo Guy." Former college radio DJ, Production Director and General Manager at WCFM-FM, Williamstown, MA. Acting background, stand up comedy background as well. Comfortable with 'standard' narrator V.O. as well as irony, comedy and characters. Otherwise, I speak French like a native French speaker who's suffered massive head trauma, and am greatly admired by small children and adults who should know better.
